DESCRIPTION: The Multi Destination Comparative Report compares occupancy and average daily rate (ADR) between the Base Destination and all other DestiMetrics reporting destinations. The red/green data points in the summary above for the base destination indicate that the destination as being above or below the average. In all cases, the Base Destination is represented on the far left of the tables and the far left of the charts. The Base Destination is differentiated on charts with a Red data series bar. All other Destinations are represented with a Green data series bar. All data is sorted in descending order from highest to lowest and left to right, with the all destination average on the far right of the tables. All destination average is differentiated on charts by a blue line data set. Individual destination data may be obtained through the Multi-Destination Comparative Enhanced report, available by contacting DestiMetrics at the address below
